Objective of the Project

With this project we want to show even the art can be produced with recycled waste such as “blue caps”.

WHAT WE DID...

- FIRST THING WE DID WAS BRAINSTORMING AS A WHOLE SCHOOL. WE COLLECTED IDEAS FROM STUDENTS AND TEACHERS AND SELECTED MOST SUITABLE ONE TO PERFORM IT.

- SECOND THING WAS DISTRIBUTING TASKS TO STUDENTS AND TEACHERS.

AFTER THAT
ONE GROUP
CREATED A
BOX FOR
COLLECTING
BLUE WATER
BOTTLE CAPS.

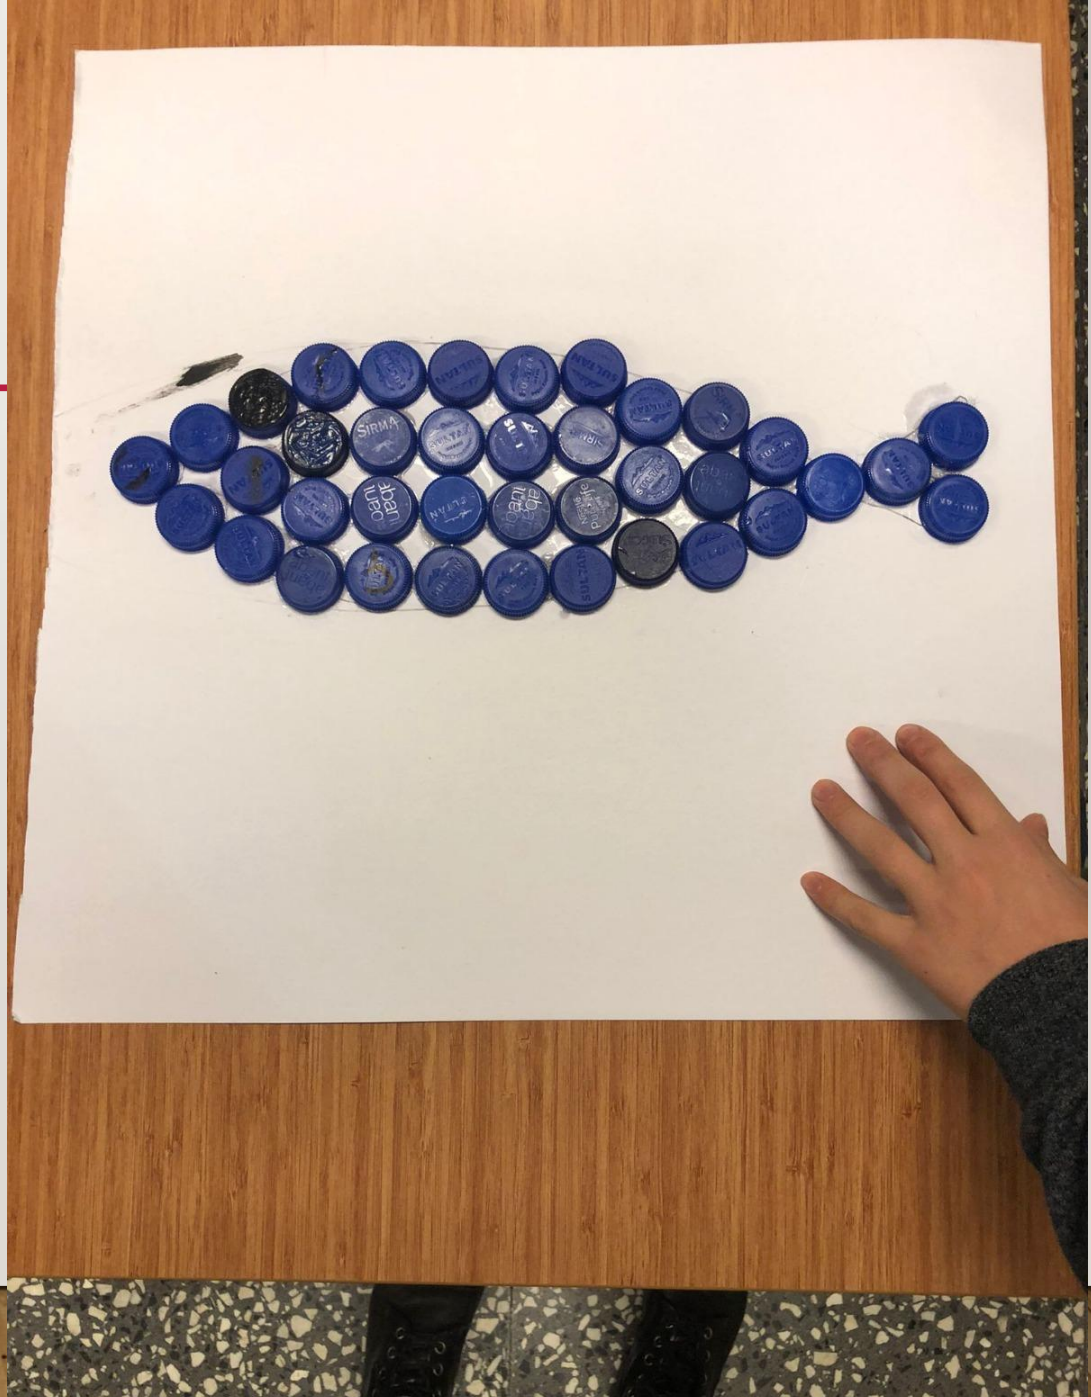

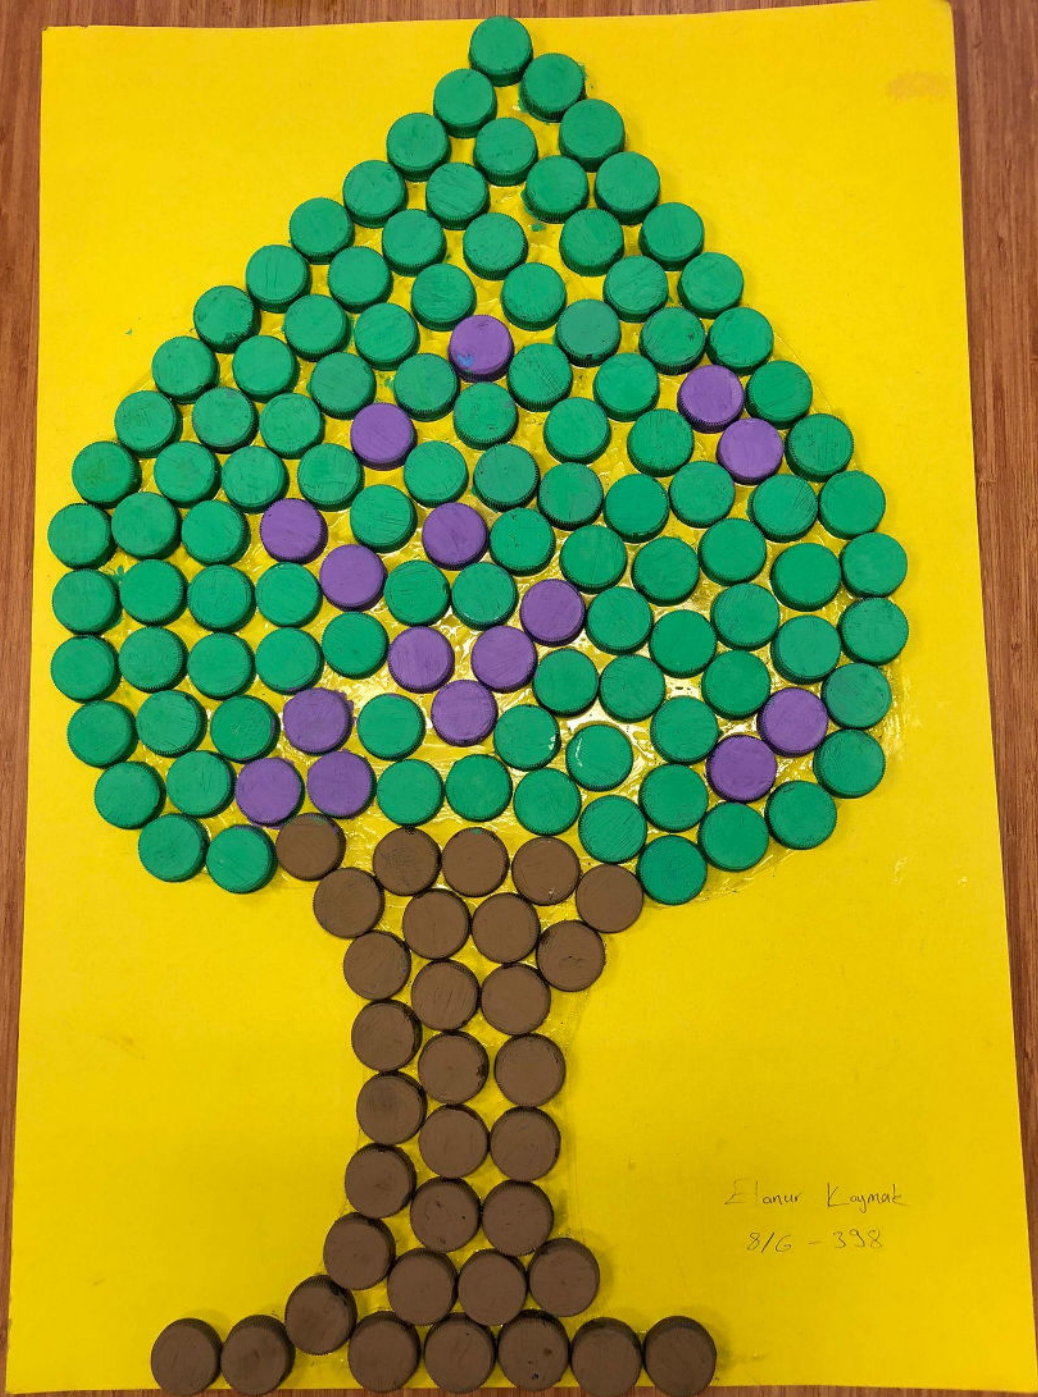

**THE WHOLE
SCHOOL
COLLECTED A
MONTH OF
WATER BOTTLE
CAPS IN THE
BOX.**

NEXT STEP WAS THE PAINTING TO CAPS.THE OTHER GROUP PAINTED THE CAPS REQUIRED COLOR.AFTER DRYING COLOR ON THE CAPS,WE GLUED CAPS ON THE CARTOON.

EVERY STUDENT DID THEIR BEST TO MAKE AN ART WORK WITH THESE RECYCLED WASTE CAPS.

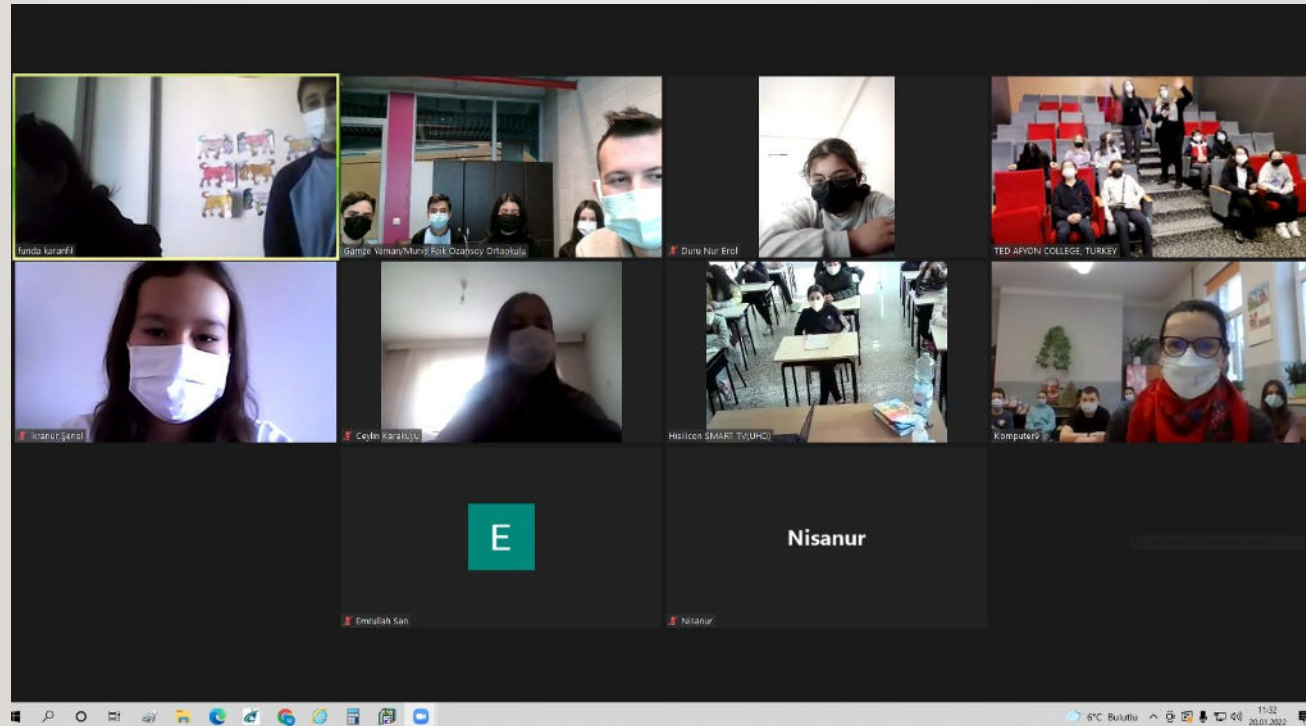

STUDENTS CREATED POSTERS FOR THE PROJECT

AFTER WE FINISH THE ART WORK, WE PUT OUR PAINTINGS ON THE SCHOOL MESSAGE BOARD TO SHOW ALL SCHOOL.

STUDENTS FROM DIFFERENT COUNTRIES MET ONLINE ON ZOOM

- Students have expressed their feelings that they have experienced during the project and wrote a letter about it.

Hello!
 It was lovely to meet with students from other countries. They were really cute. The most important thing in the meeting was the **SUPER POWER** of the project. It was very nice to use things with blue caps. I saw the photos of the art work with blue caps of our partners. They were all really perfect. Anyway, like I said, it was lovely to take a part in the project and meet with new people.
 I hope we will arrange more projects like this in the future.
 Lol, Berlin ☺

Hi,
 I'm Yunus Emre. I'm 13 years old. I feel lucky to join this project. At first, I was very excited. However, our teacher relaxed us. I love drawing pictures in my free time so it was a great chance to make art with them and listening to their thoughts about the project on the meeting. I thank my teacher and friends for this opportunity.
 I believe, a lot of people will benefit this project.
 Best Wishes
 Yunus Emre

E-twinning Project. I'm An Artist, An Ecologist and a Volunteer

Hello friends,
 My name is EFE. I'm 13 years old, I study at Munis Foik Ozansoy Secondary School and I live in Istanbul. I love my school and teachers. My hobbies are watching game, reading books, doing sports etc. I'm not very interested in sports but if I had to pick one it would be volleyball. I really had fun in the project. I and my friends collected blue caps around and created artwork with them they are our hand-made work. Also I enjoyed talking with new friends from other countries.
 I hope we will meet again and make bigger works

Dear Friends,
 This is the first time I attend in a project. I was very shy at the beginning but I was relaxed when our teacher talk us about the details in the project. Later, I had fun with preparing posters, collecting blue caps around and creating art with them. I also enjoyed on zoom meeting with my friends from other countries. They were all looked perfect.
 I hope, we will make a difference with this project.
 Best wishes

- Students' parents have expressed their feelings that their sons' and daughters' have experienced during the project and wrote a letter about it.

Oğlumun böyle bir projede yer alması gurur verici bir durum. Bir birey olarak sorumluluk sahibi olmak ve yaşadığımız dünyada sistemli ve kararlılık içinde sorumlu bir birey olarak gelecekte yarınlar bir miras bırakmak için böyle bir projede yer aldığı için gurur duyulmu.

MEHMET

Oğlum önce mavimsi kapaklardan çok güzel bir şey elastu ve bunları nasıl geri dönüştürceğini öğrendi. Oğlumun bu projeye katılması çok hoşuma gitti için önünde gurur duyuyorum.

Oğlum bu projede plastik kapakları geri dönüşüm olarak nasıl değerlendirebileceğini öğrendi. Kapakları kullanarak süslemeler yaptılar ve yeteneklerini keşfettiler. Böyle bir projede yer aldığı için gurur duyuyorum.

Merhaba,
Bu proje sayesinde kızım hem İngilizce konuşup hem de yeni insanlarla tanışıp kendisini geliştirdi. Aslında, bende duvarımın bir tarafını mavimsi kapaklarla süslemek istiyordum. Yani mavimsi kapaklarla bir şeyler yapmak gerçekten çok güzel :)
Sevgiler, Fatma.
